Dilemma by Design: Child Welfare Policy and The Ethical Problems at the Front Lines of Work with Families - Ruth White, MSSA

The federal financing system designed to fund the child welfare system is the leading factor contributing to the poor performance of America’s child welfare system. The minimal flexibility to use this federal funding leaves helping professionals unnecessarily focused on out-of-home placements for children rather than reunifying and preserving families by reducing poverty and unemployment. Drawing from Catholic Social Teaching, Catholic social workers can play a crucial role in future advocacy for a true family orientation in the American child welfare system. This presentation will show focus on how to take a strong stance.

11:00 AM-12:00 PM
Common Clinical Issues Encountered When Working with Birthparents & Therapeutic Interventions - Kimberly Harrell, M.Ed., LPC, NCC

We now have a new understanding of what was once thought of as a simple decision to place a child with an adoptive family and recognize it as a selfless and heartbreaking choice. We have moved well beyond decision-making into needing to address multiple and various clinical issues. This presentation addresses those issues and gives participants a tool box filled with appropriate interventions.

12:00-1:30 PM
LUNCH In order to network, we will have an opportunity to buy our own lunch at the Prybyla Food Court and bring it back to the conference room. Options include Quiznos, Chick-Fil-A, and the following food stations: Mexican, stir fry, grill, and salad.

One Way Conversations: Social Media and Relationships - Michael K. Horne, Psy.D

Based on the increasing popularity of social media, how much is this impacting our ability to genuinely connect with the people around us, especially within our families? This talk will look at how social media impacts how we see ourselves and what we expect of each other in relationships. Specific techniques to assist parents increase awareness of, and protect against, social media pitfalls will be reviewed.

2:30-3:30 PM
The Role of Families in Social Work Interventions Through the Lens of Health Care - Karlynn BrintzenhofeSosc, PhD, MSW

This presentation will focus on the important place families hold in social work interventions with individuals who have a chronic or life-limiting disease. Individuals with a medical diagnosis are most often not alone in working through the health care system and in adjusting to the diagnosis. This presentation shows participants how to incorporate the family into the social work intervention using a theoretically based individual assessment.

3:30-5:00 PM
Hospice in the 21st Century - Cristen M. Krebs, DNP, ANP-BC

This presentation will explore the history of hospice, as well as present day issues plaguing hospice care, with emphasis on issues that support stealth euthanasia. A summary of the challenges families face when experiencing terminal illness will be reviewed, including those that complicate ease of hospice implementation and foster hospice misconceptions (difficulty determining life limiting diagnosis, limited direct, honest and early health provider communication).

Job Qualifications
The ideal candidate would be well-versed in current events (e.g. read a newspaper daily), have excellent phone presence, be able to multi-task in a fast-paced environment, be responsive and decisive. Because our interns spend so much of their time interacting with Members and their staffs, candidates must be mature, professional, and a quick-study.
