The Consumer Financial Protection Bureau (CFPB) is recruiting next year’s class of Director’s Financial Analysts. The CFPB is the newest federal agency, established in July 2011 in response to the financial crisis. Our mission is simple but has broad impact on the entire country: we strive to make the financial markets work better for consumers. We’re seeking top talent from across the country to help us accomplish this mission.

Why CFPB?
The CFPB provides a truly unique opportunity to use data-driven insights to provide protection to American consumers. If you want to serve the country, work at a mission-oriented startup, and gain work experience in the Federal government, this is the place to be.

What is the Director’s Financial Analyst Program?
The Director’s Financial Analyst Program is our highly selective, two-year rotational program. We seek out a small group of talented college graduates and challenge them to use their analytical skills to make financial markets work better for all Americans. Director’s Financial Analysts work alongside senior executives on the CFPB’s highest priorities.

Selected analysts will complete several rotations in offices around the CFPB, and all will complete a rotation in our Strategic Projects and Risk Analytics office. We conduct different types of financial analysis and develop deep knowledge in a range of financial products and marketplaces. We also receive world-class mentoring and training during an intensive orientation program and through intermittent sessions throughout the two years.

Who are we looking for?
Candidates for the Director’s Financial Analyst Program should be innovative self-starters with a desire to work in a fast-paced, analytical environment. The Bureau's start-up environment requires skill in adaptability, problem solving, collaboration, initiative, detail-orientation, and communication. Candidates must be quantitatively driven and have completed extensive coursework in economics, finance, mathematics, econometrics, and/or statistics. Ideal candidates also have a demonstrated interest in consumer insight, consumer behavior, consumer protection, and public service.

On September 11, the United Nations Foundation (UNF) is hosting a viewing of the documentary “Honor Diaries” at GWU’s Jack Morton Auditorium. We would like to invite students and faculty of the George Washington University’s – Political Science Department to attend the viewing of this event. Associate Producer Julie Smolyansky (CEO of Lifeway Foods) and member of the UN Foundation’s Global Entrepreneurs Council will moderate the panel.

This powerful film has a particular focus on female genital mutilation (FGM), honor violence and honor killings, early and forced marriage, and lack of access to education. The film profiles nine women’s rights activists with origins in the Muslim (and non-Muslim) world, and follows their efforts to affect change, both within their communities and beyond.

**Jack Morton Auditorium**
805 21st Street NW
September 11, 2014
Reception Viewing and Panel Discussion, 6:00 – 8:30 pm
The trailer can be viewed at: [http://www.honordiaries.com/](http://www.honordiaries.com/)

The Synopsis:
These women, who have witnessed firsthand the hardships women endure, are profiled in their efforts to affect change, both in their communities and beyond. The film gives a platform to exclusively female voices and seeks to expose the paralyzing political correctness that prevents many from identifying, understanding and addressing this international human rights disaster. Freedom of movement, the right to education, forced marriage, and female genital mutilation are some of the systematic abuses explored in depth. Spurred by the Arab Spring, women who were once silent are starting to speak out about gender inequality and are bringing visibility to a long history of oppression. This project draws together leading women’s rights activists and provides a platform where their voices can be heard and serves as inspiration to motivate others to speak out. More than a movie, Honor Diaries is a movement meant to inspire viewers to learn more about issues facing women in Muslim-majority societies, and to act for change.
