Students for a New American Politics (SNAP) PAC, a Political Action Committee run by Yale students that works to elect progressive candidates and train a new generation of progressive leaders is looking for summer fellows. We provide paid summer fellowships for students to work as grassroots organizers on progressive congressional campaigns across the country. Every election cycle, we raise tens of thousands of dollars from private donors and political organizations, endorse a slate of progressive congressional candidates, and run a nationwide application process to find our summer fellows. Since our founding in 2006, we have raised over $200,000, endorsed dozens of candidates, and trained more than 100 fellows.

Our fellows receive intensive training, then work for 10 to 12 weeks in the summer months — with an optional extension to November — as full-time field organizers. After the Fellowship, many SNAP alumni continue as exceptional progressive organizers. Some serve in government, some become integral parts of the labor movement, and others excel working on political campaigns.

Interested applicants may access the application on our website, [http://www.snappac.org/](http://www.snappac.org/). If you have any questions, please feel free to contact us at chris.rice@snappac.org
The Autry Fellowship provides an opportunity for talented and passionate recent college graduates to work for one year to address pressing issues of inequity in the South as a full-time, paid staff member at MDC.

The ideal Autry Fellow is deeply committed to advancing social equity and opportunity and is eager to support the mission of MDC—to help organizations and communities in the South close the gaps that separate people from opportunity.

MDC believes that each Autry Fellow has something unique and fresh to bring to MDC’s work, and in turn the Fellowship is designed to provide the Fellow with an experience that will enhance their understanding of social change and help place them on their own aspired path to promoting equity.

In this way, the Autry Fellowship advances MDC’s tradition and vision of creating a cadre of young leaders who have experience promoting economic development, increasing equity and excellence in education, building inclusive civic cultures, and who are poised and ready to apply their new learning to benefit the region.

To date, there have been 16 Autry Fellows. The Fellow’s time will center on learning MDC’s strategies for promoting economic and social justice by participating in a variety of project teams. The Fellow will devote a significant portion of time to a collection of projects determined jointly by the Fellow and MDC. This allows the Fellow to work collaboratively across all areas of MDC to advance MDC’s mission and to ensure organizational goals are achieved.

Interested applicants must submit their completed application (available for download here) and resume by Monday, January 11, 2016 at 5 p.m. Applicants will receive confirmation of receipt within 48 hours of submission. An interview day for finalists will occur in February 2016.

About MDC: For nearly 50 years, MDC has been clearing the pathways that lead to opportunity by working with foundations, nonprofits, communities, and business leaders—primarily in the South—to connect disadvantaged people with education, employment, and economic security.

As described in our recent State of the South report, we center our work on building and strengthening the "Infrastructure of Opportunity"—the set of systems and supports present in many communities that, once aligned, can boost young people to higher rungs on the economic ladder.

By linking community engagement and systems change, MDC aspires to change the underlying conditions that create inter-generational poverty.

Drawn from the Headlines: Communication and Political Cartoons

Washington, D.C…. On Wednesday, November 18, at 7 PM, the National Archives hosts the 11th Annual McGowan Forum on Communication titled “Drawn from the Headlines: Communication and Political Cartoons.” A panel of award-winning political cartoonists will discuss their work, inspiration, and motivation. They will examine how political cartoons affect the political community and the public, and how technology has impacted the form. Moderated by David Sipress, cartoonist for The New Yorker, the panel features Tom Toles of The Washington Post, winner of the 2011 Herblock Award; Jen Sorensen, nationally-syndicated cartoonist and 2013 recipient of a Robert F. Kennedy Journalism Award; Keith Knight, award-winning creator of Knight Life and The K Chronicles; and Signe Wilkinson, the first female artist to win a Pulitzer Prize for Editorial Cartooning. This program is made possible in part by the National Archives Foundation with the generous support of the William G. McGowan Charitable Fund.

In 2012 the world was shocked as militant Islamists overtook northern Mali, capturing the ancient city of Timbuktu, instituting Sharia law, and destroying many of the city’s cultural and scholarly icons. Many feared they would take the whole country. In January 2013, France intervened in its former colony, stopping an Al Qa’ida advance on the capital. French military intervention prevented Mali from falling into the hands of Al Qa’ida, but the forces also helped promote stability in the region, preventing the extremists’ return. This intervention was fairly quick, effective, and relatively low cost. As we look to combat terror groups such as ISIL we ask, what lessons can we learn from this intervention? Can these be applied to larger or more entrenched groups?

Join WAC-DC as we host Dr. Christopher S. Chivvis, author of *The French War on Al Qa’ida in Africa*, to explore the military involvement of France in Mali to combat extremists. Dr. Chivvis is the Associate Director of the International Security and Defense Policy Center and a Senior Political Scientist at the RAND Corporation.

Wine and cheese reception to follow. Books available for sale and signing.
